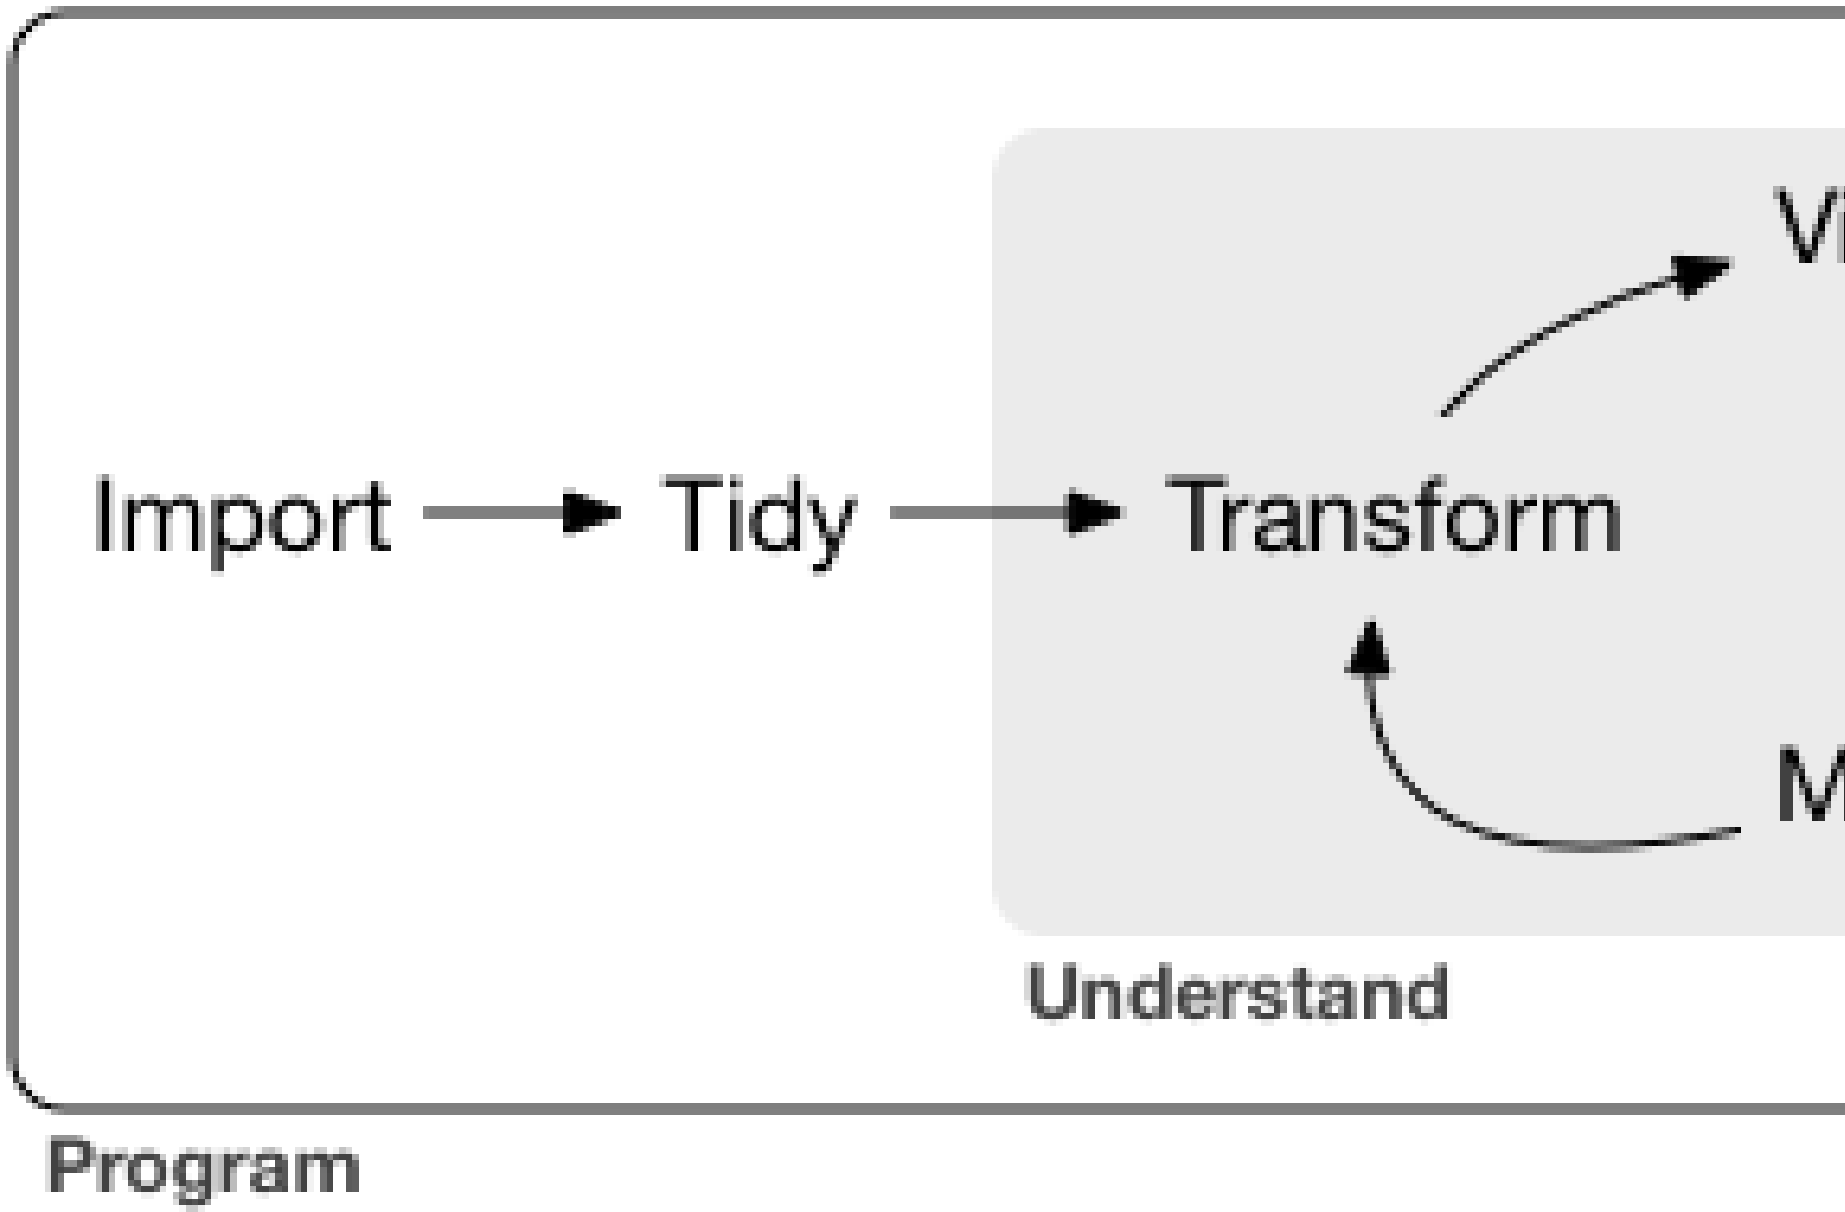
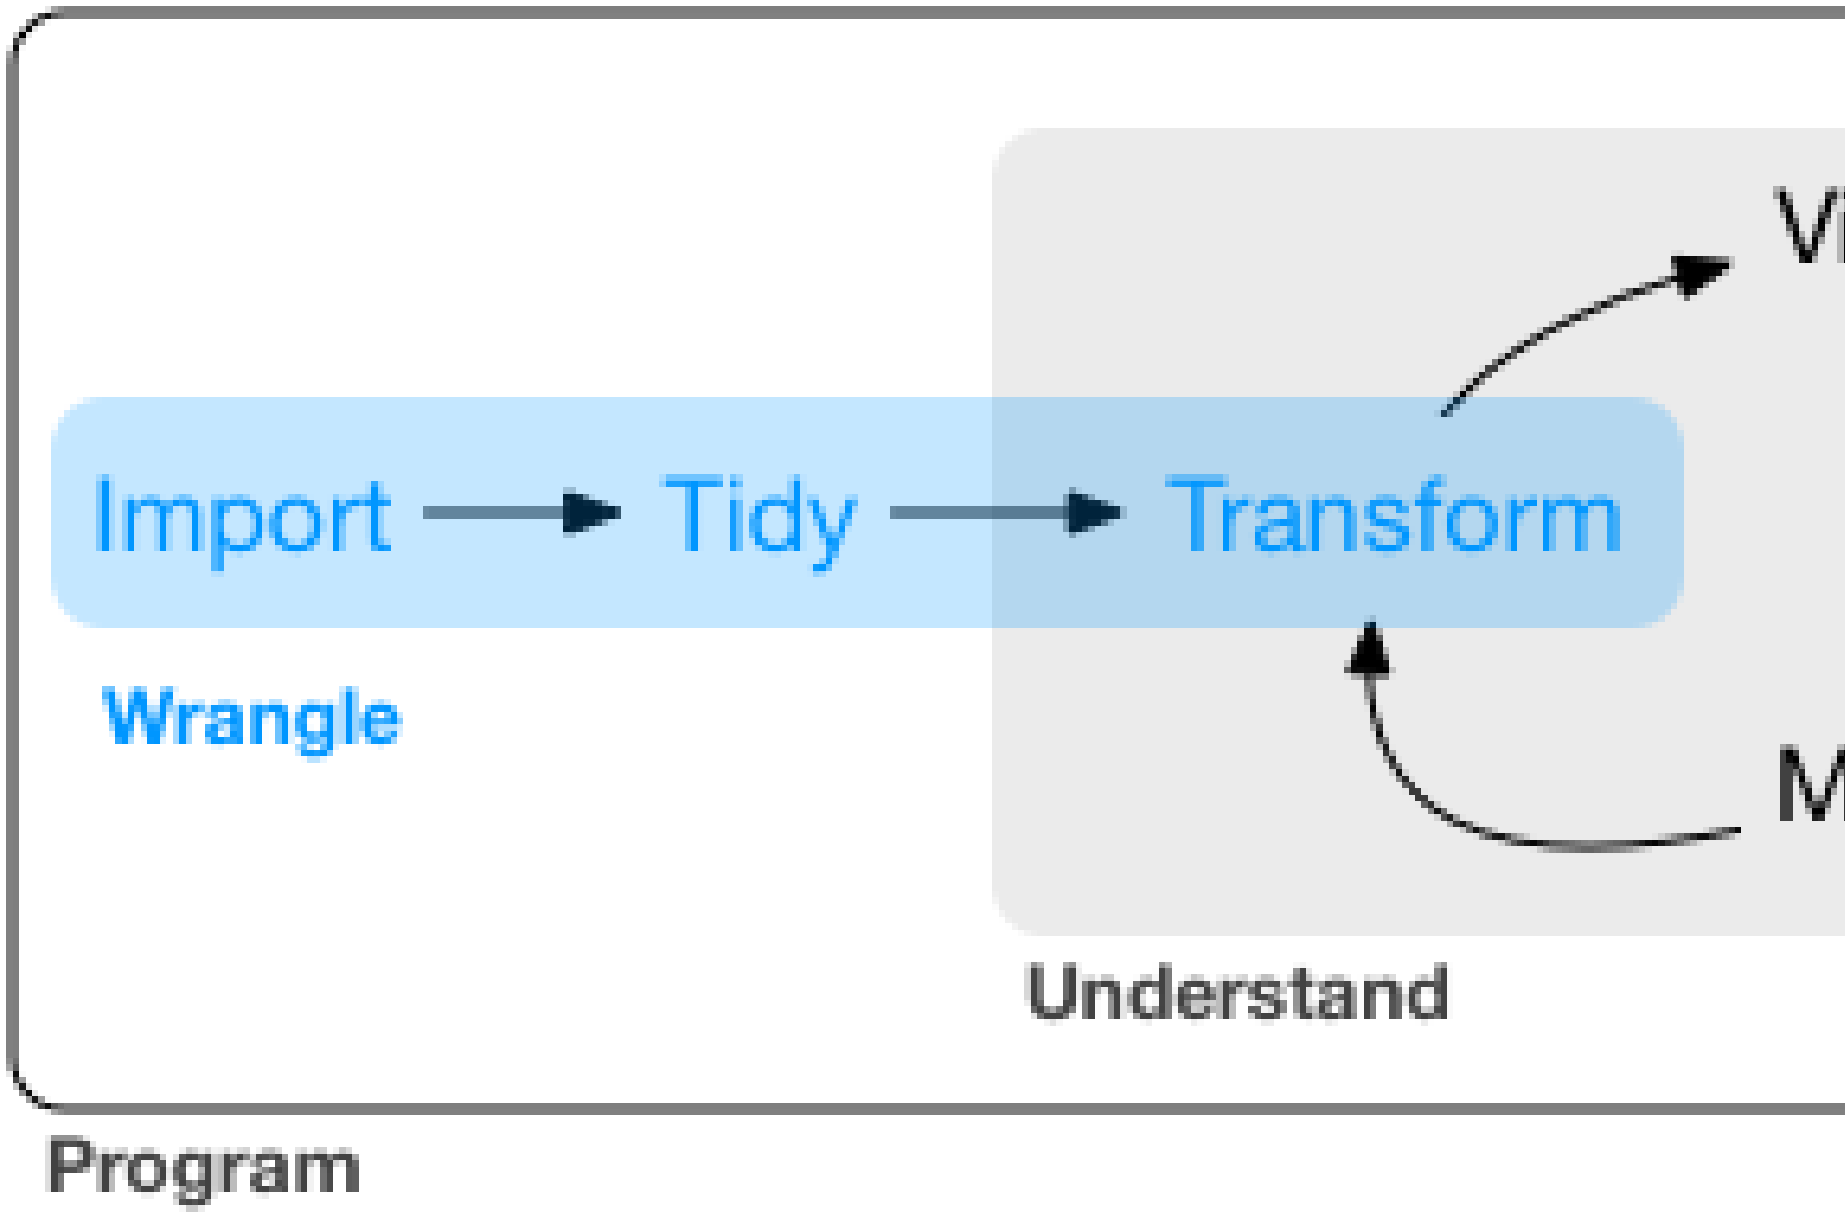
Data science workflow



Data wrangling



Data manipulation

tibbles

Grammar of data manipulation

Strings

- package `stringr`
- enhances base functions for strings manipulations
- functions `str_*`

Dates

- package `lubridate`
- enhances base functions for dates and times manipulations
- `ymd`, `year`, `month`, `day`, `round_date`, `floor_date`

A package to rule them all

- package tidyverse

Ressources

- R4ds
- rstudio cheatsheet
